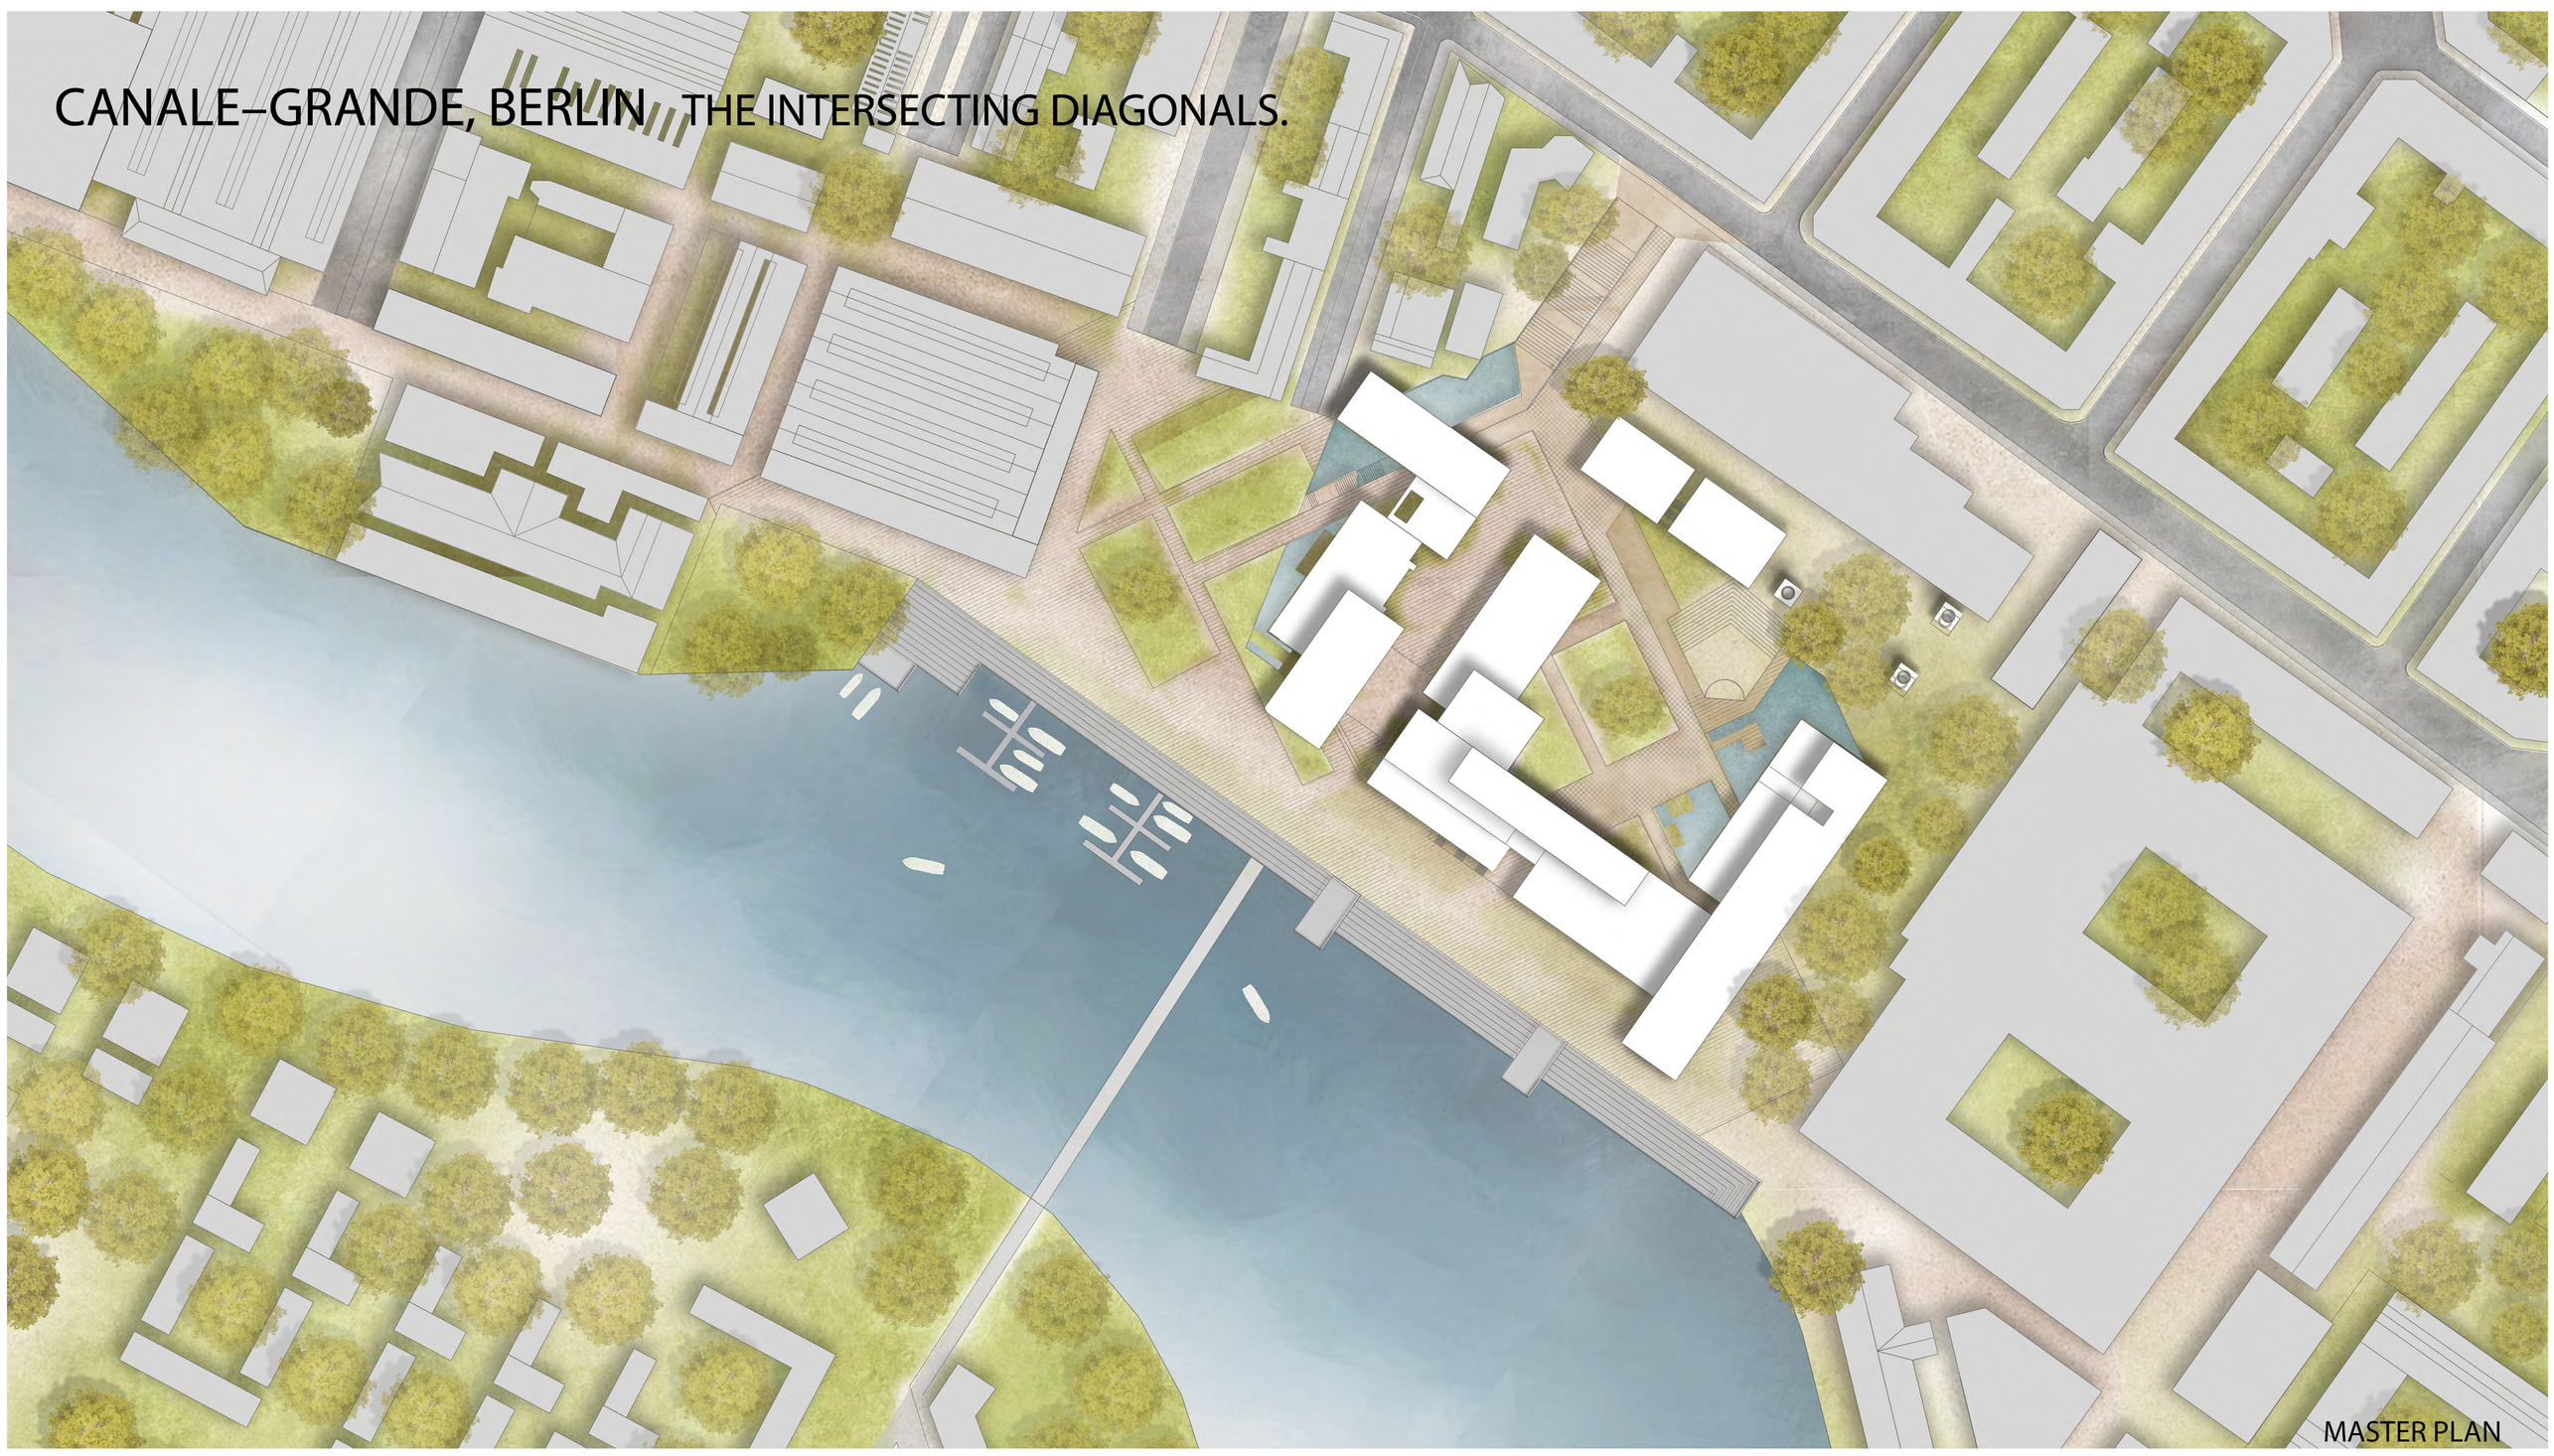
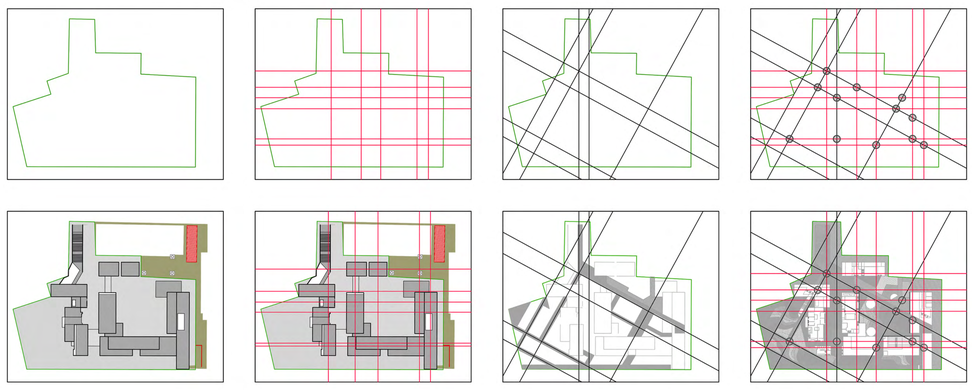
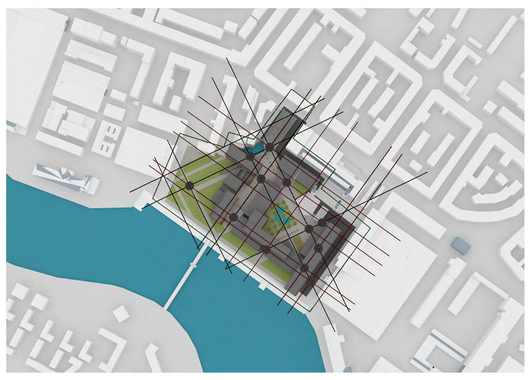
CANALE–GRANDE, BERLIN. THE INTERSECTING DIAGONALS.



INTERSECTIONS FORM AN IMPORTANT ASPECT OF THE DAILY ROUTINE WHERE THE JUNCTIONS ACT AS INTERACTIVE AND SUPPORTIVE MEANS OF THE DAILY COMMUTE.





A PUBLIC SPACE IS A PLACE WHERE CULTURES ARE FOUNDED, A SPACE WHERE TO FAVOR AND ENSURE EQUALITY AND SOCIAL RELATIONS, A PLACE TO STRENGTHEN TIES WITH NEIGHBORS AND WITH ONE'S OWN CITY. WE UNDERSTAND "PLATZ AM KAISERSTEG" AS A COMPLETELY OPEN, ACCESSIBLE AND FLEXIBLE PLACE, WHERE ALL KINDS OF ACTIVITIES ARE MIXED, WHERE THERE IS SPACE FOR COMMUNITY, BUT ALSO INDIVIDUALITY COVERING A WIDE RANGE OF THE POPULATION, FROM CHILDREN TO THE ELDERLY. BECAUSE ONLY BY RESPONDING TO DIVERSITY WE CAN ENSURE THE FULL DEVELOPMENT OF SOCIETY.

UNDERSTANDING THE IMPORTANCE OF INTERSECTIONS AS WELL AS INDIVIDUALITY THE BUILDINGS ARE ALIGNED WITH LINEAR TOGETHERNESS FOR EASY ACCESS ALONGWITH INTERSECTING AND CONNECTING THEM AT MULTIPLE POINTS TO FORM A COHESIVE UNION.

THE DEVELOPMENT OF THE DESIGNATED SITE INVOLVES THE INCORPORATION OF THE 3 MAJOR AXIS WHERE THE BUILDINGS ARE ALIGNED ON THE X AND Y AND THE VISUAL ASPECT IS POWERED BY THE Z AXIS.

SIMILARLY THE CIRCULATORY DIVISIONS AREDERIVED BY FLATTENING AND TILTING THE 3 MAJOR AXIS INTERSECTING THE VERTICAL LINES FORMING JUNCTIONS OF INTEREST AND DIVERSION.
