

Dear students,

the team of the University library welcomes you to the start of the new semester!

At our **3 university locations in Köthen, Dessau and Bernburg** we offer a wide range of media and are happy to support you in all questions concerning literature and research!

During Winter semester 2023/24 we are open for you as follows:

Mon - Fr: 9:30 am - 8:00 pm (service hrs: 9:30 am - 5:00 pm)

Registration at the library

To register at the library, you will need your **student ID and a completed registration form**, which can be downloaded [here](#) or filled out on site.

Research & borrowing

Our literature search engine [Discovery-Service](#) serves as a universal entry point for research. This offers an overview of all scientific sources inside and outside our library holdings. The online catalog [OPAC](#) is still available for searching our local library holdings.

To access our electronic resources off-campus, you will need to set up [Remote Access](#).

An overview of borrowed items is available through the **user account**. The personal account can be accessed through the Discovery-Service, the UniNow App ([Playstore](#) & [App store](#)), or our online catalog. This can also be used to renew and reserve borrowed media online. The regular loan period for printed media is 29 days.

It is possible to pre-order literature - please contact your local library!

Our most important [services](#) and tips for [research](#) are described in detail on our homepage.

NEW: Online-training series in the library

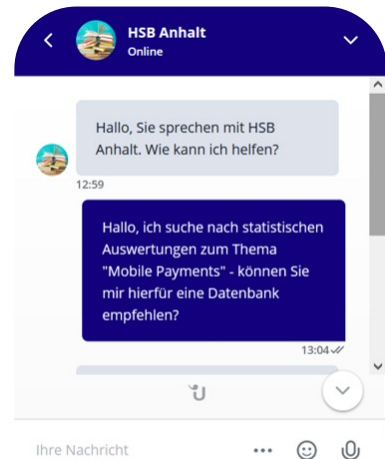

Take part in our new, **regularly scheduled online courses**! In three main topics of 60 minutes each, we offer the opportunity to expand knowledge on literature research and management.

For our international students, we offer a 90-minute English-language research training once a month. English-language Citavi training courses are available upon request.

More information about the training dates as well as the registration form can be found [here](#).

NEW: Live Chat

From now on, you can also chat with the library team in real time. During our service hours, we will be happy to answer your questions about borrowing and research. You will find the chat icon on the web pages of [University library](#) in the lower right corner.

Service boxes to pick up media 24/7

Pick up ordered media contactless and around the clock? This is now possible with our service boxes. You can request the literature you need by e-mail or by phone during our service hours from the team at your campus library. As soon as the books are ready for pickup in the service box, you will receive an e-mail with a pin code that you can use to open the corresponding box and remove the ordered literature.

Learn languages interactively with Rosetta Stone

This online language course allows you to learn different languages at different levels interactively and on the go. A placement test helps determine your current level of proficiency. Access is free for university staff and students. Please only use [this link](#) for registration and make sure to enter your student e-mail-address.

After successful registration you can start learning [here!](#)

[Flyer "Getting started" with Rosetta Stone](#)

[Instructions for using the mobile app](#)

For [more information](#), feel free to visit the webpages of SPZ (Sprachenzentrum)!

We are happy to assist you with research, literature acquisition, and any questions you may have about academic work!
