FROM BAUHAUS IN WEIMAR TO LOHELANDGARDEN IN BERNBURG

THEME PROPOSAL MASTERTHESIS

In 2019 the world will look to Central Germany, the birthplace of the modern age, where the Bauhaus celebrates its 100th anniversary. Everyone is familiar with the building in Dessau. However, the founding of the world-renowned design college did not take place in Dessau but in Weimar (Thuringia). In Weimar, the young Magdalene Trenkel gave the first Bauhaus people holistic access to free movement and nature experience. But she was supposed to realize her dream of "Lohelandgarden" in Bernburg. Now threatens the destruction of their life's work by a controversial parking project.
