'Rahmenplan für den eingeschränkten Lehrbetrieb für den Zeitraum vom 11.01.2021 bis
31.03.2021 - Ergänzung'

Supplementary regulations

to the Framework Plan for Restrictions affecting Teaching
for the period of January 11, 2021 to March 31, 2021

of January 14, 2021

On: Completing final theses and internships (*Berufspraktika*) at Anhalt
University of Applied Sciences (Bachelor and Master)

For students admitted to complete their **theses** before January 11, 2021: The **submission deadlines** for theses in bachelor's, master's and diploma degree program may be extended by a maximum of eight weeks. The clock on submission deadlines will stop ticking for the period between January 11, 2021 and the resumption of regular academic operations (but at least until March 7, 2021). Thus, students will have the complete remainder of the time allowed for completing their theses at their disposal when regular operations resume and facilities such as the university library, lab, studios/workshops or computer pools reopen. Departments are given the authority to pass additional regulations to implement the above and to notify the University's Office of the Registrar (*Prüfungsamt*) of the changes made.

For students admitted to complete their theses on or after January 11, 2021: By way of derogation from their degree program and examination regulations, these students may be granted an extension of their thesis preparation time corresponding to the period during which access to the university's facilities is not possible, as stipulated in the Framework Plan (*Rahmenplan für den eingeschränkten Lehrbetrieb*).

An **internship** (*Berufspraktikum*) which had to be terminated by the company or due to other justified circumstances may be recognized if a minimum of 50% of the weeks stipulated for the internship in the degree program and examination regulations have been successfully completed by the student.
